

“The sooner we
can begin caring,
the more our
patients and their
families can benefit.”

– Debbie Marchant
Langdale Hospice House

“We are the only hospice house in this area. Our staff is specially trained in end of life care and we address not only our patients but also support and educate the families and caregivers in end of life care.

We all consider it an honor and privilege to care for someone during this very intimate time. It is our goal to ease the suffering of our patients and to help the family deal with the loss that is taking place in their lives. The sooner we can begin caring, the more our patients and their families can benefit. Being able to work with such an outstanding group of dedicated people in the effort to touch lives and bring peace is very rewarding.”
